

# THE HOSMER'S

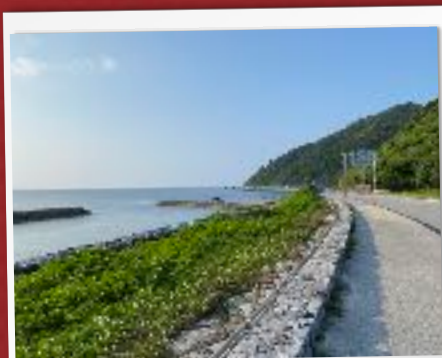

ABOVE: BRO. HOSMER TEACHING A DAILY DEVOTIONAL VIA ZOOM

LEFT: EVEN IN OUR EMERGENCY STATUS... WE GOT TO FELLOWSHIP

## Just a quick update for the month

- The second wave of the Corona Virus hit us mid July through August. The Government leaders requested most non essential facilities to refrain from opening in large numbers. So we had reverted back to online services for just about everything. Small group, Preaching Points, Bible School and Sunday services are all being done online. But last Sunday people decided to come to church anyways. They were really missing each other and the need for fellowship was too strong.
- Daily I teach to a group of people across Zoom and on a private Facebook group a morning devotion.
- Already in our 7th semester of Bible School and it is just amazing to see these students grow in the word of God.
- Starting next week we are opening up all services and we are expecting the Lord to move in a great way!
