

THE HOSMER'S

LEFT: NEW CHURCH BUILDING IN NAGO CITY. ABOVE: CONNECTING WITH SOME GOOD FRIENDS WHILE ON DEPUTATION.

Just a quick update for the month

- So happy for Brother and Sister Panton to finally get their own church building. It was pretty hard to find one in the City of Nago that was affordable and at a good size. They are using this building for church services, fellowship and teaching English.
- The second week of this month we came down with Covid. This was such a great test of our faith and God is certainly worthy of Praise. I know it was only God that kept us. But due to us catching this virus we had to go into a two week quarantine. By the grace of God we were able to resume our deputation in Kentucky District at the end of the month.
- Very blessed to reconnect with some old friends on this deputation.
